Retransmitted with compliments:-

It is seen from the letter of the Chairman that
the Mysore Stoneware Pipes and Potteries Ltd. have
requested the Trust Board to place their indents
on the Company direct for the supply of Stoneware
Pipes and that, in case it is agreed to, the Company

Serial
No

could quote their best rates to the Stores Purchase Committee in connection with the proposal to fix up the rate contract for the year 1948-49. They expressed the hope that direct purchase by the Board from the firm would be of great advantage to the latter. Presumably, the Company do not want to have dealings with the contractors who either delay in raising their requirements from the firm or delay to pay the amounts for the supplies made.

4) In this connection it may be suggested that several Departments of Government draw their requirements from the rate contractors approved by the Stores Purchase Committee. Similarly, the Trust Board, if they want to draw the Stoneware Pipes, and make them available to the contractors, they may do so from the contractors approved by the Stores Purchase Committee for the supply of Stoneware Pipes. The arrangement of drawing the requirements ~~from the~~ *directly from a firm as* ~~now~~ by the Board and making them available to the drainage contractors is recommended to Government through a resolution of the Board and it may be agreed so. *The firm will be selected by the S P C.*

5) As regards the fixing up of a rate contract for the Stoneware Pipes, it is being done after calling for quotations. The quotations which have been called for already are due in this office on the 15th instant. The contract could have been fixed up even earlier but for the fact that some of the Departments did not

9) Retransmitted with compliments -

The letter from the Mysore Storeware

Pipes and Potteries Ltd, to me wanted merely that if the requirements of the Trust Board for a year was made known to them and the Board further undertook to pay directly to the Company for quantities supplied, they would be in a position to quote special rates to the Stores Purchase Committee - The Board's resolution is

"That the proposal made by the Co, and the Office Note thereon be approved and recommended to Government for sanction, payment being made only on delivery according to the requirements of the Board from time to time, the agreement being further extended for a period of a year at a time"

10) The Company have also stated in their letter that the Board can arrange inspection and stipulate quality. The proposal made by the Company was recommended to the Board as it secured the following advantages:

- 1 The Company would quote the best possible terms to the Stores Purchase Committee
- 2 The Company undertakes to store their pipes after they are purchased by Government in their yard without charging any ground rent
- 3 The Company undertakes to guarantee the safety of the material
- 4 The Company does not charge any centage

29/4

29/4/48

5766/ul supply of stone ware pipes etc to
Bengaluru Trust Board

1/3) From the correspondence between the Company and the Board, it is clear that what the Company wanted was mainly that in case their rates are approved by the Stores Purchase Committee, they would supply the required quantities for ^{the} year, payment being made directly by the Board for these supplies

1/2) The recommendation made by the Stores Purchase Committee may be accepted, the quantities stipulated being made approximate and not of a binding character

the Board's requirements, payment would be made on the quantities so delivered. The Chief Engineer for Irrigation also - agreed that the proposal was one which would be of benefit to the Board and would be of help to the Drainage Contractors who would be relieved of the responsibility for payment of - the cost of pipes and that the proposal could be recommended to Government. It was accordingly resolved:

"That the proposal made by the Company and - the Office Note thereon be approved and recommended to Government for sanction, payment being made only on delivery according to the requirements of the - Board from time to time, the agreement being further extended for a period of a year at a time "

I accordingly request that sanction of Government be obtained to the above proposal as resolved by the Board. - Copies of the letters received from the Company and the ^{Engineer} Officer's Note on the subject are also enclosed for favour of - reference. If the proposal is approved, the draft conditions of the agreement to be executed will be submitted.

I have the honour to be,
Sir,
Your most obedient servant,

C. R. Narayana Rao

LSS.

SUBMITTED.

The Mysore Stoneware Pipes and Potteries have been repeatedly urging the Drainage Department to place the -
effecting
indents on their Company direct and effect purchases of
Stoneware pipes by the Government or Quasi Government -
Bodies. If this procedure is adopted by Government, they
assure us that they would quote the best possible terms
to the S.P.C. since the direct purchase of these materials
by Government will be advantageous to them in many ways.

Their main grievances are that the tendered Contractors who place their indents for the purchase of pipes, do not consume the indented quantity early. They take their own time for purchasing the required quantity as the work progresses which is generally very slow. By this method, the Company stands to lose heavily as enormous quantity of pipes that have been manufactured for Government work will be lying idle in their yard. Sometimes even the recovery of the cost of the pipes from the Contractors is found a little difficult.

The Drainage Department is using the unusual Section of pipes viz., 7" The Company have ~~its~~ ^{then} demand outside to manufacture standard Sections of 6", 9", 12", 15", 18" etc. The Section of 7" is an unusual one and the Company is forced to manufacture such Sections and store them in their yard for a long time as they will not be in demand in other places.

This Company for the manufacture of Pipes and Potteries is the first of its kind in Mysore State and the

the Government have their interest in it. It is but fair that every encouragement is given to this Company for the promotion of its interest. In these

In these circumstances, it is recommended that the pipes be purchased by Government as it will have the following advantages.

(1) The Company would ^{quote} ~~get~~ the best possible terms to the S.P.C., as a direct purchase is stated to be advantageous to them.

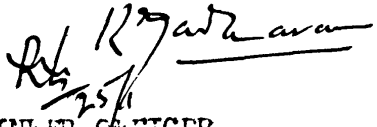

(2) The Company undertakes to store their pipes after they are purchased by Government in their yard without charging any ground rent.

(3) The Company undertakes to guarantee the safety of the materials.

(4) With the above undertakings the necessity of for charging any centare over the cost, does not arise.

(5) If the Department purchases the pipes, to that extent the Contractor need not invest his money over them and the money so saved will be available to the Contractor to proceed with the work portion rapidly.

In these circumstances, as the proposal is convenient both ^{to} the Company and to the Department in many ways, I feel the Board may consider this question and approve this suggestion made by me.

ENGINEER OFFICER.

For Chairman,
C.I.T. Board, Bangalore

Letter No 4060 dated 19th February 1948 from the Managing Agent, The Mysore Stoneware Pipes & Potteries Ltd, Gandhi Nagar, Bangalore City, to the Chairman, City Improvement Trust Board, Bangalore

Sub-Supply of Stoneware Pipes & Fittings to the Drainage Works in Bangalore City

We must invite your attention to our representation No 1012 ~~date~~ of the 19th September, requesting you to purchase your requirements direct from the Company and do away with the current practice of obtaining your requirements through the Works Contractors

In our reminder No 2590 of the 15th January, we again requested that this may be placed before your Board and their decision secured and intimated at a very early date. This is necessary, we stressed, in view of the fact that we have to tender to S P C to the next contract shortly. Our previous contract has expired by the 20th of last month and rates have to be determined by the S P C for the next term. It is for our mutual interest that your decision is communicated early so that you might get the benefit of rates etc

by acceding to the arrangements we propose

Thanking you, _____
